

SECURITY

data-nappers at large

ENTRY BARRED

protect your valuable data from hackers
How secure is your data?

Cyber crimes and misdemeanors threaten your bottom line
How do you avoid becoming an easy target?

CyberArk security expert **Gerritt Lansing** will talk about how the techniques and technologies pioneered by state-sponsored hackers to attack high-profile targets are now available for purchase and are being adapted by crooks for theft and 'data-napping'. What are the issues? How can you and your client(s) avoid becoming easy targets?

Date: **JANUARY 26, 2017**
Time: **5:30 P.M.** Evening Forum & Networking
Program: **6:00-7:00 P.M. Speaker: Gerritt Lansing**
CISSP and Director of Consulting Services at CyberArk
Location: **Wallwork Curry McKenna**
10 City Square-5th Floor, Boston MA

Please RSVP online by January 19 to : www.babcne.org

Cost: \$25 members (\$35 for non-members & at the door). Pre-registration is a must.
